

## **ADB-DD9**

### ***Air Diffuser Station Instruction***

Parts List:

1. Air station base
2. Plug
3. 3/4"-1/2" Barbed fitting
4. 9" EDI fine bubble disc diffuser

1. Fill the air station base with sand or gravel, then glue the plug using all-purpose cement. The air station base must be weighed for stability.
2. Screw the disk diffuser to the base.
3. Screw the barbed fitting (provided) to the base and attach air tubing.

Must use Teflon tape for all threaded connections for air tight.
